Typography

Primary Typeface (Headings & Display)

Rajdhani (Google Fonts) — Bold, condensed, and angular, used for headings, navigation labels, and call-to-action buttons to reinforce the competitive gaming tone.

Weights in use: 500 (Medium), 600 (SemiBold), 700 (Bold)

Secondary Typeface (Body & UI)

Inter (Google Fonts) — Clean, highly legible sans-serif used for body text, descriptions, form labels, and table content.

Weights in use: 400 (Regular), 500 (Medium), 600 (SemiBold)

Element	Typeface	Size	Weight	Line Height
H1 / Page Title	Rajdhani	40px	700	1.2
H2 / Section Title	Rajdhani	28px	600	1.3
H3 / Card Title	Rajdhani	20px	600	1.3
Body Text	Inter	16px	400	1.6
Caption / Meta	Inter	13px	400	1.5
Button Label	Rajdhani	16px	600	1.0

Iconography

Icons should follow a consistent line-style with rounded joins, 2px stroke weight at 24x24px base size. Recommended source: an open-source icon set such as Lucide or Phosphor Icons (line variant), recoloured to match the match the defined colour palette.

Icon Purpose	Suggested Icon	Usage Context
Search	magnifying-glass	Catalog page search bar
Filter	sliders / funnel	Catalog filter controls
Trophy	trophy	Leaderboard / tournament badges
User	user-circle	Profile navigation and avatars
Game Controller	gamepad	Game category tags
Chat / Forum	message-square	Community section
Theme Toggle	sun / moon	Dark/Light theme switch
Notification	bell	Header notification icon

Imagery & Photography Direction

Game cover art and banners should be high-contrast, vibrant, and action-oriented, sourced from royalty-free or original artwork only. Screenshots used in media galleries should be 16:9 aspect ratio. Avatars default to geometric placeholder icons in the accent colours when no custom image is uploaded. All imagery on dark backgrounds should include a subtle gradient overlay (Void Black to transparent) to maintain text legibility over banners.

Spacing & Layout Grid

Token	Value	Usage
space-xs	4px	Icon-to-label gaps
space-sm	8px	Inner component padding
space-md	16px	Card padding, form field spacing
space-lg	24px	Section internal spacing
space-xl	48px	Section-to-section spacing
container-max	1280px	Max content width on desktop
grid-gutter	20px	Gap between catalog cards
